RISK AND PROTECTIVE FACTORS FOR CHILD ABUSE AND NEGLECT

Jun 28, 2020

[Risk And Protective Factors For Child Abuse And Neglect](#)

Risk factors are those characteristics linked with child abuse and neglect, but they may or may not be direct causes. A combination of individual, relational, community, and societal factors contribute to the risk of child abuse and neglect. Although children are not responsible for the harm inflicted upon them, certain factors have been found to increase their risk of being abused and or ...

[Risk and Protective Factors for Child Abuse and Neglect](#)

Understanding the risk and protective factors for child abuse and neglect is ... For example, parental mental health problems are more likely to be associated with neglect (Cowling, 2004). Risk and protective factors also operate differently as children grow (Li, Godinet, & Arnsberger, 2011). For example, one study found that low birth weight and birth abnormality ceased to be a risk factor ...

Having one or more of these characteristics doesn't automatically mean a child will experience abuse or neglect – and not having any of them isn't a guarantee that a child will never be harmed. But we do know that these challenges are often interlinked and the more problems a child and their family are experiencing, the greater the risk of abuse (Cleaver, Unell and Aldgate, 2011 1).
